Re: Cranberry Pond Dam #005.12, Alstead
Letter of Deficiency (LOD) DAM #005.12
Issued on August 4, 2004

Dear Mr. Ackerman:

Based on a file review and a follow-up inspection conducted on October 18, 2005, at the above referenced dam, the Department of Environmental Services (DES) has determined that the referenced LOD is considered complete and will be closed. Enclosed is a copy for your reference.

The Department of Environmental Services is recommending that you continue to remove the beaver debris, cut the re-growth of trees, and cut brush as necessary. In addition, DES is also recommending that you monitor the stonework of the overflow spillway for further deterioration and repair prior to the next scheduled inspection, which is in 2010.

If you have any questions or comments, please contact me at 603-271-3406 or write to the Water Division at the address listed below.

Sincerely,

COPY
